N'NARY MAKES A LAST VIGOROUS HOPELESS KICK

Misrepresents New Mexico's Sentiment on Jointure.

TELLS CURTIS INTERESTING

Editor of Optic Says People of Territory Are "Bitterly Opposed" to the Jointure Project.

(Wm. E. Curtis in Chicago Record-

Heraid.)
James Graham McNary, editor of the Las Vegas (N. M.) Daily Optic, who was in Washington last week to protest to the president against joint statehood for New Mexico and Arigona. says that twelve newspapers are cited as favoring joint statehood, of which seven are democratic and are actuated by purely political motives, and three are published at Albuquerque, which expects to be the capital of the joint state if the bill is passed.

"Some people would kick if they were about to be hung," said Mr. Mc-Nary, earnestly. "A great majority of the people of Arizona and New Mexico are bitterly opposed to jointure. Business interests, railroad interests mining interests, political interests, church interests, educational interests unite in protesting against this unwel

"Why do the educational interests oppose it? Because we would have two state universities, two agricultural colleges, four normal schools. Some of these would necessarily be disrupted and the labor of years overthrown in the consolidating process which would

It is a fact that the Presbyterian yood, which takes in Arizona and New Mexico and met in Las Vegas in November, was almost to a man op-posed to jointure, and would have passed a resolution to that effect but for a feeling that it was not appropriate. Why do they oppose it? Because they have encountered the obstacles of distance and expense in holding their assemblies, and irrespective of the statehood proposition, seriously considered taking steps to separate in-to two synods. The Methodist confersnee of Arigona and New Mexico, meeting in Silver City in November did pass a memorial against jointure Business interests oppose it. The agricultural and stock men of New Meximining wealth of Arizona. The entity of New Mexico is as distinct as that of McNary Waxes Sentimental.

"Our people oppose joint statehood on sentimental grounds," continued ico and Arizona-our size, our boundaries, our rivers and our m are all good enough for us. We love New Mexico; Arizona is a stranger to us, and vice versa. We do not want this thing, and the more Beveridge and his colleagues say we must the it, the more our Americanism exclaims that we will not take it. We have fought for fifty years for what we believe to be right and just, and we prefer to take nothing rather than accept

"Politicians" Oppose It. "The political interests oppose pinture. It has been no frequently charged that the selfish politicians are the only opponents of joint statehood that we are weary with expostulation How many of these writers know con ditions and know that the small proportion who favor joint statchood portion who favor joint statehood is almost entirely made up of democratic who are now out of power and observable who are now out of power and observable who are now out of power and observable who will be democratic, and they would thus be re-established. The only community is that of Albuquerque, whom newspapers and people realize that on account of its geographical position. Albuquerque would almost out that on account of its geographical position.

on account of its geographical posi-tion. Albuquerque would almost cer-tainly become the capital of the joint state within a few years.

Property Loss "Enormous."

"The property loss alone, incident on jointure, would be enormous. The ghandonment of two capitals for a new one more centrally located, the one penitentiary, etc., and the private values affected thereby would be invalues affected thereby would be incalculable. A prime motive of joint
statehood is to remove the Mexican
people as a factor from the new state.
This is a great wrong to the original
softlers and owners of the southwest,
particularly New Mexico. The Mexican
people, in proportion to the opportunities they have enjoyed, are as good eliigens as are to be found in the United
States. They are great politicians, take
an intense interest in public affairs,
are loyal to their party, and are patriare loyal to their party, and are patriotic and not venal. They are rapidly taking advantage of the educational opportunities which are being opened up for the present generation They cherish their name and love for New Mexico. The federal government has never given them half the oppor-tunities of education and culture speedfly installed in the Philipp Porto Rico and Hawatt. Now it would take away from them their right place in the state, which would be theirs by natural heritage.

R's "Outrageous Despotism." New Mexico is further a lyanced in dustrially, educationally and socially than the majority of the thirty-two states which congress has admitted at the time of their admission. Its schools contain as many youths as the entire population of Indiana was when she was admitted as a state. Her railways, her farms, her business inter-ests, her schools and her churches are advanced far beyond those of the states when they were admitted. One town has just completed a \$25,000 building for its Young Men's Christian association, a monument to the character of its citizenship.

If congress will not give the pe-what they want," continued M ple what they want," continued Mr. McNary, "let them give us the right to remain as we are until ready for separate statehood. To attempt to force the citizenship of these two territories into an obnoxious and unhappy unlon is an outrageous display of political

MILLIONS FOR A NEW SIOMACH

One of the greatest American millionaires once said to his physician, "A million dol-lars. Doctor, for a new stomach," and then the sick man groaned and turned away. the sick man greaned and turned away. One of a man's greatest pleasures is that born of a keen appetite, vigorous digestion and a good dinner, and this belongs to many a good fellow who is living on small wages, but the rich man without a stomach has to forego the good things of the table because his stomach rebels. Without a healthy stomach and a good digestion, our blood is thin, watery and poor, our heart action is weak, our liver does not do its duty, and man is miserable and unhappy, in this condition man is prey to the germs In this condition man is prey to the germs of influenza, consumption, maiaria and all the ills that he is heir to. Consumption

the fils that he is heir to. Consumption can be treated by natural methods which are as close to nature as possible.

Dr. R. V. Pierce, chief consulting physician of the Invalids' Hotel and Surgical Institute, at Buffalo, N. V., years ago understood this disease, and after a long period of experiment discovered certain roots and herbs which were nature's remodies. and herbs which were nature's remedies, and succeeded in putting them up in a form that would be easily procured and ready to use. This he called Dr. Pierce's Golden Medical Discovery. It gives no false stimulation because it contains no alcohol and no narcotic. It helps digestion and the assimilation of such elements in the food as are required for the blood. Instead of a cod liver oil, against which the already sensitive stomach will declare open rebellion, this tonic has a pacifying open rebellion, this tonic has a pacifying action upon the sensitive stomach and gives to the blood the food elements the tissues require. It maintains the patient's nutrition by enabling him to cat, retain, digest and assimilate nutritious food. It overcomes guartic irritability and symp. overcomes gastric irritability and symp-toms of indigestion, and in this way fever, night-sweats, headaches, etc., are done away with. It fortifies the body against the germs of consumption, grip and ma-laria, and it builds up the tissues and puts

When the druggist says he has som thing that is "just as good" as Dr. Pierce Golden Medical Discovery, he says so b cause he hopes to make a better profit but his own mixtures have not stood to test of long experience nor had the succe that Dr. Pierce's medicines have had.

CASE TO LAST FOR TWO DAYS MORE

ARMY OF WITNESSES IN SUIT OF M'INTOSH VS. ROMERO

The case of William McIntosh vs Eugenio Romero and the commission ers of the Chillii land grant, which has been on in the district court in this city for the past eight days before Judge Ira A. Abbott, is still in prog-ress. E. W. Dobson is representing the plaintiff and W. B. Childers, the defendants and it is anticipated that the case will consume at least t days more. The case is to decide boundaries of the McIntosh lands the grant, and some 1,800 acres If grounds," continued land are involved. The Romeros has "Our names—New Mex-been cutting ties on the land in que which will be due Mr. Alchrosh for timber, should the case by decided in his favor. Each side of the controversy has an army of valuesses. A number of them are surveyors and the taking of testimony has been necessar-
